OVER 900 MARCH ON SATURDAY

An estimated 900 marchers took part in Drayton Valley's Miles for Millions March Saturday. The march was the largest of the three held to date.

Registrations totalled 971 but with some marchers using more than one registration card, committee members were unable at press time to come up with a figure more accurate than the 900 estimate. Registration forms held space for 10 sponsors and some of the marchers used two or more forms.

Following a new course this year, the marchers left the Centennial Arena at 7:00 a.m. and followed a trail to the Government Campsite at Easyford and back by a different route.

Of the 971 registrations, 52.7 percent or 512 completed the 26 - mile walk. The combined marchers walked a total of 19,434 miles.

Mr. Dave Ellery was the first home, covering the course in four hours and thirty minutes. He

Attendance Records Set at Alberta Parks

Record attendance at Alberta's 39 developed provincial parks was realized during 1969, with a total of 4,385,130 day use visitors during the period of April 1 to November 30, 1969. This compares with attendance figures of 3,639,427 during the same months of 1968, and far surpasses the previous record of 3,917-730 set in the period April 1 to November 30, 1967.

Attendance for the calendar year 1969 was 4,547,995 persons.

One new park, Gregoire Lake, was established and two new parks were opened to the public during the past year: Chain Lakes in April and Sir Winston Churchill in July, bringing the Alberta total for provincial parks to 46.

For the second straight year Cypress Hills Provincial Park drew the most visitors , 676,723. It was followed in popularity by Aspen Beach, Miquelon Lake, Wabamun Lake and Park Lake.

Wabamun Lake park had a 1969 attendance of 332,992; Pembina River Park at Entwistle, 73,279; and Ma-Me-O Beach, 47,487.

FIRE DESTROYS EVANSBURG RINK

The Community of Evansburg suffered a heavy loss last weekend when the curling rink there was destroyed by fire Saturday afternoon.

Firemen responded to the alarm about 2:30 p.m. but the fire was out of control by the time they arrived and efforts were concentrated on saving the adjoining arena and neighboring houses.

The arena, completed recently, was joined to the curling rink with dressing rooms and kitchen. The kitchen area and the 10-year-old curling rink were completely destroyed but the arena suffered only minor damage.

The Evansburg Fire Department was assisted by Entwistle firemen in controlling the blaze.

Much credit for saving the arena was given to Mr. Don Tuttle who moved in with a cat, and while covered by streams of water from two hoses, dozed down the wall between the two buildings enabling firemen to contain the blaze.

Members of the fire department stood by all night to guard against a further outbreak.

Insurance was carried on the building.

Art Exhibit, Sale Planned At Wabamun

An art exhibition and sale will be held Saturday, May 23rd from 10 a.m. to 4 p.m. in the Wabamun Jubilee Hall.

The exhibition will consist of some 50 paintings of a wide variety by Mrs. Nettie Wanner. The exhibition is sponsored by the Wabamun and District Community Association.

Mrs. Wanner was raised on a farm south of Moose Jaw, Saskatchewan and lived in Lethbridge for many years. She is the wife of George Wanner, a relieving foreman with Alberta Coal Ltd., who has worked at Wabamun off and on as necessary, for approximately three years. They have one son, Stanley, presently working in Calgary.

Painting has always been one of her dreams but one which has not been fulfilled until a year ago. She worked as a wedding gown designer since 1959, but due to pressure of work decided to pursue her life-long ambition of painting.

There will be no charge to see the exhibition and coffee will be served.

Never let the sun go down on a squall with the frau—she'll spend the night dreaming up a whole new argument.

Plans Advancing for New Baseball Season

As usual baseball is off to a slow start this spring. It seems that after six months of tightly scheduled hockey, spirits sag a bit and keen interest in organized athletic activities wanes some what. Consequently, the baseball season, which could be in full swing by mid-May is still at the preparatory stage.

It seems quite definite at this time that there will not be any Juvenile or Midget baseball here this year. To date no interest has been shown nor have any applications been recieved from boys at those age levels.

Turning to Bantam baseball, a team from Drayton Valley will compete in the County of Parkland League. This team will be coached by Lawrence Duperron and Don Compton and will get their schedule under way Friday, evening at 6:30 p.m. when they visit Seba Beach in the season's opener. This league is composed of five teams, Moon Lake, Entwistle, Seba Beach, Tomahawk and Drayton Valley. The schedule runs through till early August. There may be a possibility of a second team being formed in Drayton Valley at the Bantam level, after the team in the Parkland League has been finalized. This team would play a series of exhibition games over the summer with any and all available teams.

At the "Little Canadian" level, the scene turns to the Oilfield Minor Baseball League where the Drayton Valley team will be playing this season. The Oilfield "Little Canadian" schedule runs through until approximately July 1st. The team coaches are Allan Baker and Richard McDonald. The team has been finalized and all is set for the season's play to start.

It would seem that from the formation of this "Little Canadian" team, three or four other teams will be selected to form a Drayton Valley Community "Little Canadian" League. Coaches are required for this level and if appropriate leadership can be found we hope to have this league playing ball late this week. This is a very important phase of our baseball program since it gives every boy a chance to play baseball if he so desires.

At the Mite level, that is boys between the ages of six to ten years, we have the opportunity to have a team in the County of Parkland League if this is satisfactory to all concemed. Over and above this we could have two or three teams in a Community League, again depending on our coaching staff. We also have been asked to form a team at the six to eight year old level. This will be done if enough registrations are received in this category.

Turning to Ladies' Fastball two teams will be playing in the County of Parkland League. Bruce Cable will once again coach the Drayton Valley High School team in the league while a local ladies team will play in this circuit under the direction of Rickie Simon. Both teams get under way with their schedule this week.

Several younger girls have signed up for Fastball and the required teams and leagues will be formed within the next week.

A Baseball Committee has been formed within the Drayton Valley Athletic Association with Hill Innis as Chairman. Coaches are needed for all levels and help would be appreciated in other areas of the program, especially in umpiring. Umpires are few and far between and it is impossible to play a game of baseball without one or two of those men on the field.

Last marchers to cover the whole route were in at 7:00 p.m. at which time cars began picking up those still on the course.

Cars along the route were reported a problem again this year. Reports indicate that dust from cars in the late afternoon made conditions very uncomfortable for those still on the march.

Offer Short Courses In Home Economics

The Agricultural and Vocational Colleges at both Olds and Vermilion are prepared to offer two short courses in home economics for high school girls during the summer, 1970. They will have available at least one instructor to prepare and teach the major portion of the course at each College.

In order that appropriate plans and preparations can be made for these short courses, the College administration must have a reasonably accurate indication by May 15th, as to the number who plan to attend. If sufficient interest is shown by that date, application forms would be made available to all interested. The deadline for applications would be June 12, 1970.

The course at O.A.V.C. will be a Clothing and Design or Fabrics and Dress Course at approximately the Grade 10 level but not identical to Fabrics and Dress 10. The proposed length is from July 27th to August 14th inclusive, Monday through Friday. This course is designed for girls who have had some home economics in Junior High School but who do not have access to home economics in High School. Therefore, the minimum requirements will be 15 years of age or a complete Grade 9 (Grade 9 diploma) and one year of Home Economics at the Junior High Level.

The cost for room and board in College residence is $50 with $10 for tuition. Materials and supplies for course work will cost approximately $15 - $25 and personal items and travel are extra.

The maximum enrollment will be 18 and the minimum enrollment of 10.

The course at V.A.V.C. will be a three week program in which students may elect to take either clothing or foods along with subjects in consumer education, family living, personal growing, handicrafts, and the like.

The level will be approximately Grade 10 and it will be three weeks long, Monday through Friday, July 13 - 31 inclusive. This course is designed for girls who have had less than one year of home economics education in school. Therefore, the minimum entrance requirements are: 15 years of age, Grade 9 diploma and not more than one year of home economics from school. Maximum enrollment will be 32 and minimum 20. The cost for room and board in the college residence is $50 and $10 for tuition. Materials and supplies for course work will cost approximately $15 to $25. Personal items and travel costs are extra.

If you have a teenage daughter who is interested please phone the South Edmonton office (433-8060) or Stony Plain office (777-2231). We would like to obtain names and addresses of tentative registrants BEFORE May 15th. The course content above is only a suggestion and we welcome new ideas for such a course. Contact us now.

EMMIGRATION DOWN

The number of engineers and scientists emigrating to the U.S. last year slumped to the lowest figure in the past four years, according to a report in Canadian Machinery & Metalworking.

The business publication states that Technical Service Council, a non-profit placement service run by Canadian industry, listed 1,100 engineers and scientists emigrating in the 12-month period ending last June 30. This was a sharp reduction from the 15-year record of 1,800 in 1968.

Main reason for the drop is the new ceiling set by U.S. immigration authorities on people entering that country from other Western Hemisphere countries.

Oil Wives Elect New Executive

The May meeting of the Drayton Valley Oil Wives was held on May 11th with 79 members and one guest present. A delicious meal of breaded veal cutlets was served for this occasion in the Cardium Room.

LETTERS TO THE EDITOR

Editor,
The Western Review

Dear Sir:

I did not participate in the march on Saturday, but did observe it at various places along the route. From these observations I would like to make a few comments.

Only official cars should be allowed on the route. The private cars created a dust and traffic problem, and some people were giving children rides between check points.

The route should not be over 20 miles long and should be laid out by someone who has walked the route.

It is hard to judge the walking conditions when you are in a car. I feel since there are so many children taking part in the walk it should be restricted to 20 miles

Food sold along the route should be sold as close to cost price as possible. The walkers are contributing enough without paying a large sum for food.

I was told prizes were given to some of the first people finishing. If this is true I feel it should be stopped. The more highly trained athletes collect the prizes, while some of the untrained people, who struggle through the whole route and have really given more of themselves, never have a chance of winning a prize. I feel this is not meant to be a race for a reward. It is more a test of endurance and giving of one's self for a worth cause.

A great many people turned out and did a wonderful job, but there are problems that need to be worked on. Perhaps the time for a "Public Meeting" would be right after a walk when problems are fresh in everyone's mind.

A Bystander.

Preparation for Swimming Season

The Swimming Pool staff for the 1970 summer season is now complete. The staff will consist of four full time persons during the months of July and August with part time personnel being employed as required to accommodate the summer schedule.

Linda McMorris will again serve as Swimming Pool Supervisor this season. Linda has been employed at the local pool for the past five years and has been active in other phases of the Drayton Valley Recreation program since 1963, including figure skating and gym instruction. She recently graduated from Mount Royal College in Calgary with a diploma in Recreation and Outdoor Education leadership. During the past year Linda also increased her qualifications in swimming and swimming instructions, particularly in the field of competitive swimming.

Also on the pool staff this year will be Margaret Orlak of Edmonton. Margaret is a second year Science student at the University of Alberta. She is highly qualified in all phases of aquatics and should have much to offer the local swimming program especially in the areas of synchronized swimming, competitive swimming and overall aquatic instruction.

Ken Goble will be back this year. Ken has been on staff for the past three years and has done an excellent job. Ken is well qualified in the different phases of aquatics and pool operation and will be a valuable man in this year's program.

Neil Samis, the youngest member of the staff will be in his first full year as a lifeguard and swimming instructor. Neil is well qualified in aquatics and certainly will play an important part in the pool program this summer.

Miss McMorris and Miss Orlak will be full time, May and June while Ken Goble and Neil Samis will work on a part time basis due to their school work. During the months of July and August, part time Junior Lifeguards may be employed if necessary.

The pool is expected to open on or around May 25th. Preparatory work is progressing satisfactorily and if all continues to go well the opening date looks realistic.

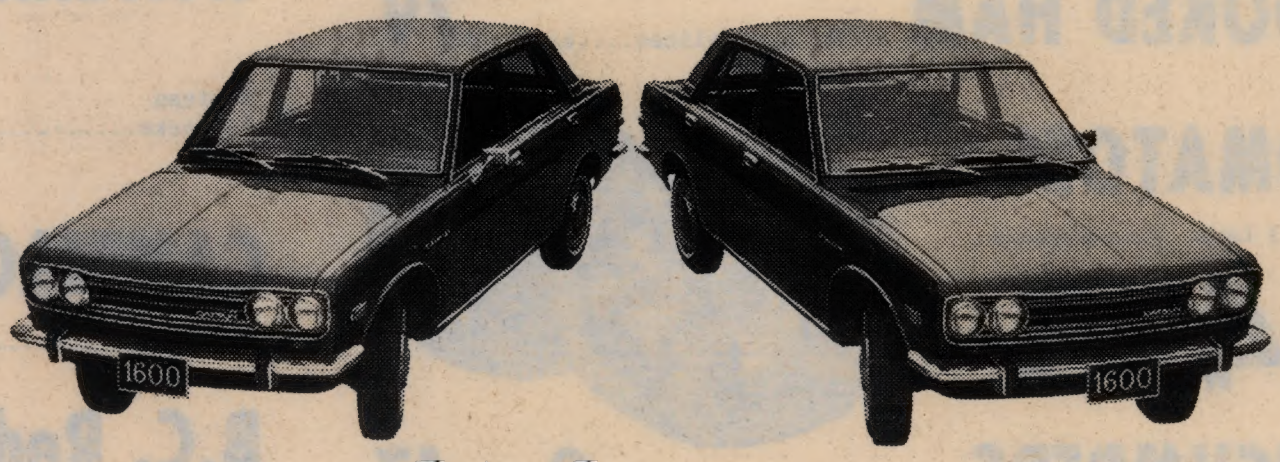
Before you spend over $4500 on a car



think twice

Datsun 1600 isn't long like a big car, but it's big inside where it counts.

It doesn't have all sorts of optional extras, because everything on it but a 3-speed automatic transmission and a radio is standard equipment. Like carpet, flow-through ventilation, front disc brakes, bucket seats, whitewalls and textured vinyl upholstery.

More important, a Datsun 1600 will go anywhere a big car will go and a lot of places a big car can't. And on the way there, it will give you up to thirty-five miles for a gallon of gas and around 100,000 miles between major overhauls.

For around $4500 you get twin 2-door 1600's. Or a wagon and a 2-door. Or two 4-doors. Or just one Datsun and a bundle for your bank. No matter which way you do it you win, when you think about it.

PORTABLE SCHOOLS EDMONTON SCHOOL BOARD

The following letter was received from the Edmonton School Board regarding extension of lease on the 3 portable schools in Spruce Grove:-

"Re: your letter of April 24.

I regret that we can in no way commit to you the three portable schools in Spruce Grove for another year in that at this point we do not know our needs for the 1970-71 school term.

On the other hand, in the interest of accommodating you as far as possible we would agree to bypassing the July return date if you will give us written assurance that should we require these buildings for the forthcoming school term you will return them to us within 30 days of receiving such notice.

Normally, we would not know for certain our requirements until August or September. I understand that if they are not needed by the end of October they should not be required for the balance of the school term. Would you please advise us if these arrangements are satisfactory to you."

It was moved and carried that a letter of thanks be sent to the Edmonton Public School Board and also advising them that their offer has been accepted.

FIRE COMMISSIONER'S REPORT
SPRUCE GROVE

The following report on the Spruce Grove School was received from the Fire Commissioner:

Re: Initial On Site Inspection, Spruce Grove Elem. & Jr. High School, Phase #1 Section.

"Concerning the captionally noted and with specific reference to plans examination sheets dated April 24, 1969 and June 17, 1969, this is to advise that the writer found that most of the items as noted on these two plan inspection sheets are being adhered to with the following exceptions.

1. The walls of Room 138 & 139 adjacent to Corridor 137 have not been extended completely to the underside of the roof deck and an approximate 4" space above these walls have been stuffed with fibreglass. It is considered that this amount of space is excessive and that it be reduced to the absolute minimum by filling it with concrete block and/or mortar as closely as possible to the structural roof members and then stuffing the intervening space, if any, with pure fibreglass insulation.
2. The fire alarm gong which has been installed in Classroom 104 is to be moved into corridor 105 as outlined on plan check sheet dated June 17, 1969.
3. It was noted that the fusible links on the fire dampers positioned in openings from Mechanical Room 140 have been paint sprayed. These are to be cleaned off in order to maintain the same temperature rating as intended.

While in Spruce Grove the writer also inspected the portables which were installed on the original Spruce Grove school site and with respect to the plan check sheet dated January 8, 1970 found that all items have been attended to as outlined with the exception that it was not noted that the fusible links installed on the furnace room door fire dampers are rated at 280 degrees. These links are to be removed and replaced with a fusible link having a rating not to exceed 195 degrees."

It was moved and carried that the above Fire Commissioner's report be received for information.

It was moved and carried that the new rental rates as set by the committee, to be increased in 2 stages, be upheld.

Mr. R. Zander, Mr. George Mann, Mr. Ivan Vowk and Mrs. A.C. Kritzinger registered negative votes.

It was moved and carried that cement blocks for a sidewalk and black dirt for a garden be supplied to Mr. W.J. Anderson of Seba Beach.

It was moved and carried that A.W. Boychuk be authorized to take part of his annual vacation from June 29th to July 3rd inclusive.

It was moved and carried that Mrs. J. Moisan's request for permission to send her children to school in Onoway be referred to Mr. Peter Bakker and the School Bus Committee for attention.

She is married and has two boys, Deepak and Sunil. Apart from teaching, her other interests are cooking new dishes, sewing and travelling to different places. Mrs. Katyal enjoys the change very much but hasn't become climatized yet.

Sincerely,
Olga Brown.

Slice of life.

Bread is a basic staple in the good life Albertans lead. And living in a province that grows the world's best wheat, we tend to take it for granted. Of course, for the farmer it's a little more complicated. It means an investment in labor, machinery, good soil management. Then markets must be found, transportation undertaken . . . even before milling and baking play their part. All in all, a skilled and complex business — comparable in many ways to the supply and distribution of electric energy. Here too specialized skills and complex processes are required to ensure that all the electricity you want is ready for instant flick-of-the-switch availability. While the overall cost of living has increased dramatically the price of electricity is still one of today's best bargains. Did you realize that the power used on a farm is, on average, less than one per cent of the total operating costs? That's something to think about when you consider inflation — or watch the toast pop up!

Junior High Students Visit Cadomin Cave

A group of 21 Junior High students interested in paleontology, enjoyed a field trip to the Cadomin area to visit a fossil bed and cave on Saturday, May 9th.

The group was disappointed to find they would not be able to get to the fossil beds because of a road change in the area. After lunch the group climbed up Cadomin Mountain to the area of the cave only to find the entrance covered with snow.

Mr. Barry Richer and Mr. Don Compton were able to find and make an opening so the group could get down into the cave. The students found the cave to be quite a young cave with only a few small stalactites and stalagmites on the ceiling and floor.

They also discovered that they were not alone in the cave, the normal inhabitants were discovered to be bats and pack rats. A few bats came back in captivity.

The group found that it was much easier to come down the mountain than to climb up. The method which was fastest and used by the students and most of the adults was to sit down and slide down the snow. Everyone reached the bottom wet but happy.

After an enjoyable wiener roast the group headed back to Drayton Valley, arriving about 11 p.m.

The students would like to thank Mr. Dave Harrison and Mr. Barry Richer for organizing the trip and thank the other teachers and parents who went along to drive and help supervise, they were Mr. Joe Gudz, Mr. Alan Baker, Mr. Jack Tyler, Mr. Tom Hutton, Mr. and Mrs. Don Compton, Mrs. Elaine Kobernick, Mr. and Mrs. Vernon Rankes, Mr. Surge Richer and G. Thomas Hutton.

Booklets on Gardening Available

OTTAWA -- It's gardening time again.

Right across the country green-thumbed Canadians are looking ahead to several months of home gardening pleasure ... and the spading, seeding, weeding, and watering that goes with it.

In some places along the west coast, the more favored gardeners (climatically, that is) may have already ventured into their garden plots. In the more eastern and northern climes it will be one, two or more weeks before they can get "on the land".

Canadian gardeners can grow a luscious variety of fruits and vegetables in many parts of the country. Even in the far northern Arctic and sub-Arctic regions, residents can keep summer food costs down by growing such salad items as radishes, lettuce, beets, chard and summer turnip. These can be seeded directly into the ground too.

The Canada Department of Agriculture has prepared a number of publications which are just crammed full of information for gardeners in various sections of the country.

Some, like "Gardening on Permafrost," No. 1408; "Handbook for Northern Gardeners," No. 1033, are prepared for particular geographical areas.

Others, like "Home Vegetable Growing", No. 1059, offer information for gardeners generally. This particular booklet is a little gem. It not only tells you when to plant seeds, but also offers information on soil, fertilizer, tools, seed selection, soil preparation and many other aspects of gardening. It has a section on herbs, perennials and small fruits, as well.

Copies of these booklets can be obtained from the Information Division, Canada Department of Agriculture, Ottawa 3, Ontario.

TOMAHAWK NEWS

Sigfreid Runzer was taken to Edmonton hospital by ambulance after his car collided into the back of Fritz Gruber's truck on Highway 16 near Fallis.

The accident happened on May 4th at about 6 p.m. with both vehicles travelling west. Mr. Runzer's car was demolished and he is in hospital where the doctors say he may be for about three months with a dislocated hip and a broken bone in his knee. He has had surgery for facial cuts. Get well wishes from your friends at Tomahawk.

Lemke's truck was destroyed by fire on May 7th on the road between Tomahawk and Seba Beach. Alfred Lemke was taking 14 hogs to Edmonton when the fire broke out. He let the hogs out of the truck, but could not save the truck. Later he caught 13 hogs and took them to market and on his way home caught the 14th hog.

Tomahawk and district is planning a parade and picnic on July 1st. The theme for the parade is "hard times". A $5 entry fee will be charged, with all entry money being used for prize money. A hard time social evening will be held on July 3rd. Dress for the occasion. The club is still looking for a name for the recreation building. Please send any suggestions to Secretary Evelyn Lukaniuk.

There will be an Umpire's clinic at Wabamun on May 16th and 17th. Anyone interested in being an umpire please attend.

Get well wishes to Bill Lukaniuk who is in the University Hospital in Edmonton and has undergone surgery on his hip.

SUMMARY

Receipts were sharply lower this week, partly due to harvesting and seeding weather. There was some increase in the percentage of slaughter classes on offer with replacement classes of cattle and stock calves accounting for approximately 65 per cent of sales. Trade opened slow on all classes with steers off 50 cents for the week. Butcher heifers 50 cents to $1.00 lower on all grades. Good to medium cows 50 cents lower. Bulls were steady. Veal $2.00 higher. Replacement feeders $1.00 lower.

Slaughter Cattle & Calves-- Slaughter steers and heifers opened the week under pressure 25-50 cents lower with buyers very selective as to condition. A few fancy choice steers sold to 32.00 which was the high for the week. In closing trade there was improved action on slaughter steers with one package of choice 1150 steers selling to 31.80. All grades of butcher heifers were under pressure all week with only the odd choice light weight selling over 29.50. Good and medium quality butcher cows were under pressure selling 25 to 50 cents lower early in the week to close at a practical top of 22.00 for good kinds with the odd sale higher. Canners and cutters were generally steady for the week. Bulls were steady with a few sales over quotations. Veal calves were in good demand and sold $2.00 higher.

Replacement Cattle & Calves- The bulk of replacement offerings were yearling classes. Prices were 50 cents to $1.00 lower on all feeder classes in line with lower slaughter quotations. Stock calves sold about steady with light weights over quotations.

Shipments -- Out of Province shipments last week from the Edmonton Stockyards were: East 100 for slaughter and 44 feeders; West to B.C., 380 slaughter. Export 24.
